Teaching Credential Preparation
- Majors pursue studies leading to the bachelor of arts degree in art history or the bachelor of arts degree in art with a studio concentration. A film history concentration is available in the art history degree. Within the art studio concentration emphases are available in painting, printmaking, photography, drawing, sculpture, and ceramics. Minors in art history, film studies, studio art, and arts management are also available. A program for students working toward a teaching credential is included within the curriculum and available through the Education Department. Several art and film history courses meet general education requirements.
- Designed specifically for the pursuit of art practices and the study of art history, film history, and arts management, the department facilities are located in one of the best equipped physical plants in the country. The programs are directed by a faculty of professional artists and scholars dedicated to their students and to the pursuit of their own creative and scholarly work. Students also have access to developing new technologies in a number of areas.

It is the departmental philosophy that a grasp of the history and theory of art is indispensable for the studio major and that creative activity is invaluable to the student of art history.

Art history is an interdisciplinary program within the department, with a core of period and survey courses that provide an integrative investigation of art and culture using both traditional and new approaches and technologies. The curriculum provides a broad overview of traditional European contributions, an introduction to the arts outside the European tradition, familiarity with historical methodology and research, including online and electronic sources, and critical thinking. Our core

is enhanced by periodic offerings of specialized upper-division classes that have included in-depth studies of artists, themes and post-modern theory, and of current issues, such as gender and multiculturalism. As a demonstration of mastery of skills and knowledge in the field, art history requires students to write a senior thesis, which indicates original research or interpretation. With prior approval of the faculty, students may write a more elaborate honors thesis in place of the senior thesis. Students are strongly encouraged to develop competency in at least one foreign language.

The film emphasis in art history situates film studies within the art historical discipline. It describes the historical development of the film medium and examines distinct traditions of film making, Western and non-Western. The film emphasis acquaints students with basic film theory and analysis, offers more focused courses on specific topics, and allows students to explore various approaches to the study of the medium through courses in other departments. As a demonstration of mastery of skills and knowledge in the field, the film emphasis requires students to write a senior thesis, which is an original piece of research and interpretation.

The art studio curriculum is designed to develop the ability to create, analyze, interpret, and evaluate art. Students learn to express their thoughts, feelings, and values in a variety of visual forms. The department strives to stimulate creativity and competency as students develop their skills and knowledge of materials and technologies. Fundamental to the study of art is a belief in its potential to communicate ideas, emotions, and values necessary for understanding and functioning effectively within the modern world. Faculty are committed to the recognition of individuality and unique accomplishment. They work closely with each student to encourage personal direction and ideas.

The department is a fully accredited member of the National Association of Schools of Art and Design.

Upon successful application to the university, students wanting to major in art may choose one of the following areas:

Art History

Film history emphasis available

Art Studio (areas of emphasis below)

Painting
Printmaking
Drawing
Sculpture

Entering freshmen or lower-division transfer students will be accepted by the university in the status of art major in the B.A. program. Upper-division transfer students who have fulfilled requirements equivalent to those for lower-division art majors at Sonoma State University will be accepted as art majors in the B.A. program.

Courses in the major cannot be taken for Cr/NC. A maximum of three courses may be challenged for credit toward the major: two lower-division and one upper-division. Most studio courses require payment of lab fees at time of class registration.

Career Opportunities Relating to the Major

Whether in art history, film history, art studio, or gallery and museum management, programs in the Department of Art and Art History are committed to academic excellence and the acquisition of skills of visual analysis and synthesis. We offer basic skills and access to new technologies as sound preparation for graduate study and teaching, as well as for professional careers in the arts. In addition, as preparation for entering a diversity of related fields, students may combine knowledge of the arts with expertise in a second area, such as business, law, film and television, or museum, gallery or archival management. Consult a department advisor for specific advice about career planning.

Advising

Students are required to consult their advisors in the department before beginning work as an Art Studio or Art History major and each semester thereafter. Not all courses are offered every semester. Consultation with an art advisor will allow for timely completion of art major requirements. An advising handbook is available through the department's Web site.

Bachelor of Fine Arts

The B.F.A. degree is a 132-unit program requiring 70 units of course work in art. The B.F.A. Degree differs from the B.A. degree in its requirements and rigor. The B.F.A. is often considered to be the degree of choice for students wishing to pursue graduate or professional studies. It enhances the artist's opportunities to perform at a higher level and fulfills the need for additional artistic growth in an intensive studio situation. The B.F.A. affords time for concentrated work within a specific art emphasis (painting, photography, printmaking, or sculpture).

Admission Requirements

Students may apply only during or after the spring semester of the sophomore year. Thereafter students may reapply as many times as desired. Applicants must meet university requirements for admission and must first be admitted to the bachelor of arts program. In addition, they must meet the following requirements to qualify for application to the program:

1. Students must complete all lower-division requirements in art; take lower-division courses before upper-division courses in area of emphasis; take Fundamentals 101/102, or equivalents, before any upper-division art course and before most lower-division art courses; maintain a 3.00 GPA in art, exclusive of GE courses; and complete all lower-division GE requirements by the end of the junior year.
2. To be considered for the B.F.A. admission review, applicants must submit 10-20 slides in a slide sleeve, two letters of recommendation (or two department faculty signatures if currently enrolled as a student) and a short statement including their reasons for applying. These will be reviewed and the candidates may be interviewed by the studio faculty to help determine if their work

demonstrates the creative level expected of B.F.A. candidates. Applications will be reviewed in spring semester for possible admission the following fall semester, and in fall semester for possible admission for the following spring semester.

Students accepted into the program decide on an area of emphasis from the following choices: painting, photography, printmaking, and sculpture.

1. Throughout the B.F.A. program, candidates must maintain a 3.00 GPA in art and a high level of performance, and will be subject to review at all times. Advisors will direct students in their specific course of study based on regular portfolio and/or slide reviews.
2. To complete the program, candidates will meet all course work for the degree and participate in the B.F.A. art exhibition, which will be reviewed by the art faculty to determine the candidate's professional competence in a chosen area of emphasis.
3. In order to receive the B.F.A. Degree, students must complete 24 upper-division units in art in residence. (May be included within the university's unit residency requirement.)

Teaching Credential Preparation

The art major with a studio concentration generally fulfills the California Commission for Teacher Preparation and Licensing guidelines for the Single Subject Credential. For the Multiple Subject (elementary) Credential students must pass the general knowledge portion of the National Teachers Examination. ARTS 400 is required of candidates for the Single Subject Credential, and ARTS 400 is recommended for Multiple Subject Credential students. Students interested in a teaching career are encouraged to consult with coordinators in the Art Department as well as the Education Department with reference to legally required education courses, along with field experience, leading to graduate or second degree studies in art and education with a teaching credential. The public school art instructor usually is expected to possess a vast range of aptitudes in 2- and 3-dimensional art forms, materials and techniques, and have a strong sense of the conceptualization and philosophies for art education for younger learners. A broadly based studio arts, art history, and Education Department course work program, including field experience in a concurrent pattern, is recommended after arrangements are made with both the Art Department and the Education Department. For further information, please see the Education section in this catalog. Contact departmental advisors and review the University's special bulletin on Programs in Teacher Education. Students seeking the multiple subject credential may also wish to pursue a minor in applied arts (please see the Applied Arts section in this catalog).

Career Minor in Arts Management

The career minor in arts management provides students of the arts with education, training, and experience in the practical, business side of their fields. Art majors completing this career minor will be in much stronger positions to find work and support themselves in fields within or closely related to their majors. The arts management career minor, combined with a minor in art history or art studio, also serves the needs of business administration majors who wish to specialize in the arts. Internships are available at local and regional art galleries, museums, non-profit organizations, and other groups that provide services for artists. Please see the section on Career Minors for a description of the arts management minor program.
